

Prepare for your Daniel Fast

During the Daniel Fast you will not consume any sugar or sweeteners of any kind, nor will you have any caffeine or artificial chemicals. Many people experience a physical detox during the first few days of the fast including headaches, fatigue, leg cramps and other typical symptoms.

You can reduce these effects by weaning yourself from these foods before the fast begins and also by drinking at least 1/2 gallon of filtered water each day before, during and after the fasting period.

Anytime you have concern about symptoms you may experience, be sure to contact your health professional. Fasting should never be harmful to the body!

The Daniel Fast is based on two of the fasting experiences of the Prophet Daniel along with Jewish fasting principles.

- In Daniel 1 we learn that the Prophet and his companions ate only vegetables (which would have included fruit) and drank only water. So with this reference we conclude that we eat only fruits and vegetables and we drink only water.
- Daniel 10 tells us that the Prophet ate no meat or any precious foods, and he drank no wine. Precious foods would include sweet foods.
- During fasts, as in Passover, the Jews remove all types of leavening from their homes and consume no leavened breads.

These points of reference are the anchors that serve as the foundation for the Daniel Fast.

The Daniel Fast

In those days I, Daniel, was mourning three full weeks. I ate no pleasant food, no meat or wine came into my mouth, nor did I anoint myself at all, till three whole weeks were fulfilled.
